Dated, Lembucherra, 16<sup>th</sup> May, 2005

**To Whom It May Concern**

This is to certify that Jinong Organic Lequid Fertilizer has been used in the farmers' field of Kalikapur Village, Agartala, West Tripura under Front Line Demonstration Program on Paddy (Boro Rice) of this complex and found good for maintaining plant health. This fertilizer may also apply to the vegetable field for improving the plant health. Thus plant may resist some disease by improving its own resistance capacity.

I wish every success of Jinong Organic Lequid Fertilizer.
